## A LIFETIME OF BEAUTY AND STRENGTH

---

Steel is the toughest, most durable, longest lasting siding you can choose. At Ply Gem, we've made it even better. We've infused the beauty and warmth of wood without the worry, making it virtually maintenance-free. When it comes to protecting your home, there's nothing more beautiful or more powerful than Ply Gem Steel Siding.

### WITH PLY GEM PEACE OF MIND

With Ply Gem's 75 years of proven performance and reliability, you can be confident you've chosen wisely. We've combined innovative engineering and design with gorgeous colors and styles, and backed every product with an industry leading warranty — all to give you choices you'll love from a company you can trust.

 **Ply Gem®** | STEEL SIDING  
COLLECTION

# WHEN MOTHER NATURE STRIKES, YOU'RE READY.

Manufactured to exacting standards and rigorously tested, Ply Gem Steel Siding protects your home from some of the worst elements Mother Nature can throw at you. From powerful gusts to pounding hail to extreme hot and cold, our steel siding's hold-tight installation, superior tensile strength, and durable, weather-sealed coating keep your home looking beautiful year after year.

# STEEL SIDING A STAR PERFORMER

## RESISTS FADING, FIRE, IMPACT, INSECTS AND MORE

- Tough, proprietary finish provides exceptional, long-lasting color
- Class A/Class 1 fire rating meets stringent building codes
- Holds strong against bumps, dents and dings
- Uninviting to insects
- Resists moisture, mold and mildew

## STANDS UP TO EXTREME WEATHER

- Protects your home from the elements, including hail and hurricane-force winds up to 235 mph\*
- Does not absorb water like other siding materials, which can crumble, rot and delaminate
- Withstands extreme temperature changes
- Our steel siding is so strong, it's approved for 6-story buildings

## MADE FROM SUSTAINABLE MATERIALS

- Made from high-quality, heavy duty galvanized steel, which is 100% recyclable
- Includes up to 50% recycled materials

## BACKED BY AN INDUSTRY LEADING WARRANTY

- Limited Lifetime Prorated Warranty includes 50-year hail and 35-year chalk and fade coverage

Steel Siding Single 8" Lap in Quiet Willow  
Canyon Stone Veneer and Sill in Chalk  
MIRA Patio Door in Black

\*Tested in accordance with ASTMD5206. Wind speed rating will vary depending on specific code region and construction method. Refer to local building requirements concerning allowable wind load and specified conversion tables for actual wind speed.

---

## GORGEOUS SEAMLESS PROTECTION

---

Ply Gem Steel Siding can be custom fitted to your home for a sleek, consistent look. Best of all, eliminating seams and break points protects your biggest investment with a tough, continuous barrier around your entire home. For a truly coordinated look, you can choose fascia, accent siding, gutters and soffits to match.

## BUILT FOR DURABILITY

---

At Ply Gem, we start with rugged 28-gauge G60 hot-dipped galvanized steel for exceptional core strength. It's thermally bonded with a high-performance silicon-modified polyester coating that captures the texture and grain of freshly painted wood. Our proprietary, multi-layered, low-gloss finish far exceeds typical PVC coatings for longer-lasting color and protection.

## DOUBLE 4"

SHOWN IN NEWPORT BAY

## DOUBLE 5"

SHOWN IN TERRA BRONZE

# SINGLE 8"

SHOWN IN JEFFERSON TAN

## TRADITIONAL LAP STYLE

Its simple, horizontal lines, easy installation, and effective protection have made Traditional Lap Siding the most popular choice for homes for centuries. With Ply Gem Steel Siding, you'll enjoy the beauty and warmth of wood without the upkeep.

### STYLE NOTES

- Narrower 4-inch and 5-inch panels add scale and texture to smaller homes.
- Wider 8-inch panels help larger homes feel less imposing.
- Combining sizes adds character and visual interest.
- Consider choosing a wide panel for your ground floor and a narrower one for your second floor.

*Play with colors and styles with our interactive design tool at [plygem.com/steel](http://plygem.com/steel).*

# DOUBLE 5" DUTCH LAP

SHOWN IN MAHOGANY

---

## DUTCH LAP STYLE

---

A favorite since Colonial times, Dutch Lap styles feature a groove along the top edge of each plank and bow out slightly below it. Originally, the groove helped the planks lay flat against the wall, creating distinctive shadow lines.

### STYLE NOTES

Traditional lap siding casts softer shadow lines while the carved notch along the top of Dutch Lap panels creates more distinctive and defined shadows.

*Play with colors and styles with our interactive design tool at [plygem.com/steel](http://plygem.com/steel).*

# BOARD & BATTEN 10"

SHOWN IN RUGGED CANYON

## BOARD & BATTEN STYLE

Inspired by the classic, rustic style of alternating wide and narrow boards, Ply Gem Board & Batten Steel Siding adds texture and interest. When installed vertically across an entire home, the design lends a modern feel and a sense of height.

### STYLE NOTES

Consider using Board & Batten siding to accent architectural features such as gables and dormers or as a counterbalance to rough textures such as brick or stone. Board & Batten siding contrasts nicely with the horizontal shadows cast by lap siding.

*Play with colors and styles with our interactive design tool at [plygem.com/steel](http://plygem.com/steel).*

## ACCENTS & ACCESSORIES

After you've chosen your favorite colors and styles, you'll find an array of matching accents and accessories, including soffits, fascia, trim and corner posts. Just like our steel siding, they're all virtually maintenance-free.

### SOFFIT

These narrow overhanging areas bridge the gap between the siding and the roofline. Vented soffits promote airflow to keep your attic cool and dry.

### FASCIA

These long, straight boards run along the edge of the roofline, holding gutters in place. They add a finished touch to your home's exterior.

### TRIM

Trim frames and protects your windows and doors. Choose shades that complement your siding for a seamless look or pick a contrasting color as a bold accent.

### CORNER POSTS

Wide boards cover and protect the seam where your siding meets. Choose shades that complement your siding for a seamless look or pick a contrasting color as a bold accent.

## PLY GEM CARES

---

*At Ply Gem, we care about the choices we make and our impact in the world. We care about you. From help finding the best colors for your home to selecting the right accessories to answering your warranty questions, we're with you every step of the way with information and inspiration from our trusted siding experts.*

### ENVIRONMENTALLY FRIENDLY

From insulated siding to energy efficient windows to insulating glass patio doors, you'll find Ply Gem products help lower your utility usage, minimizing your carbon footprint and impact on the environment. What's more, our durable products hold up to the elements and don't require painting or staining.

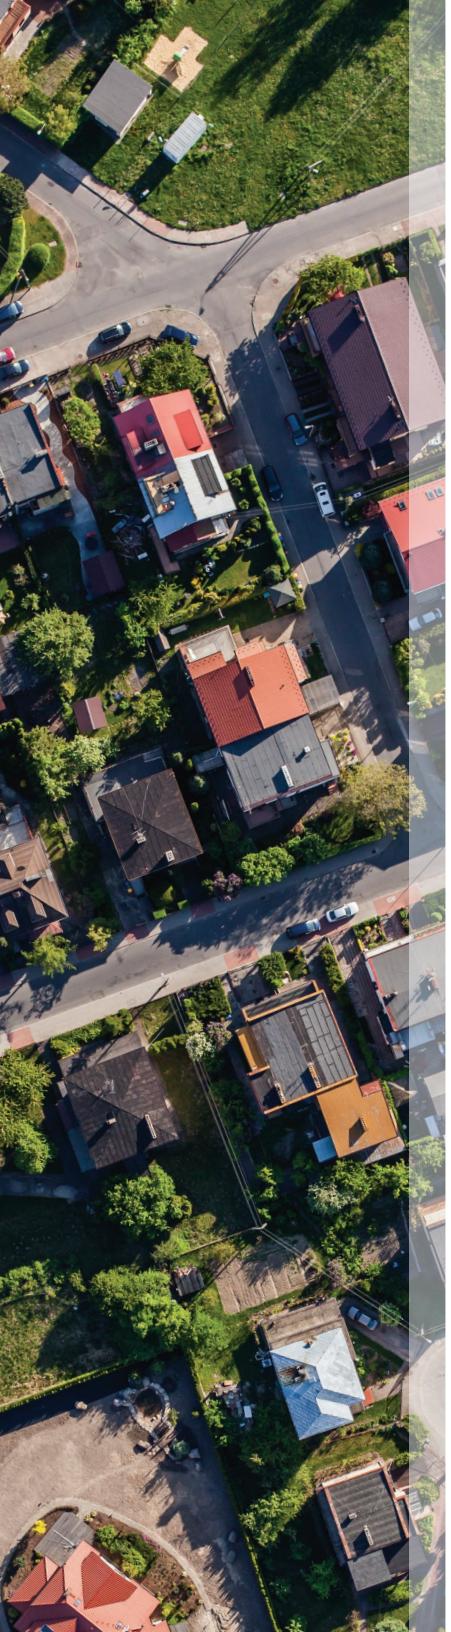

At Ply Gem, we embrace eco-friendly manufacturing practices, recycle many of our industrial and shipping materials, and opt for local resources to use less fuel in transportation. When it comes to smart choices, together, we're doing a world of good.

### HOME FOR GOOD PROJECT

Through the Home for Good project, Ply Gem has already donated \$1.8 million in building materials to Habitat for Humanity®, and helped to build 450 homes in 70 communities across the country. To learn more about how Ply Gem and Home for Good project national ambassador, Darius Rucker, are helping to make safe, affordable homeownership a reality for families, visit [homeforgoodproject.com](http://homeforgoodproject.com).
